

MrFeed® Pro50 T

....Feed for life

Menon enhances the security of food and quality of life worldwide. We help meet the planet's needs by converting natural materials into sustainable feed for animals. Our products deliver faster growth, improved digestibility and higher survival of animals leading to improved yields for end users. The production team takes pride in delivering consistency in product formulation and on-time delivery.

MrFeed® Pro50 T

Specifications

MrFeed® Pro50 T is a high quality product delivered without artificial preservatives and is rich in essential amino acids. MrFeed® Pro50 T contains crude protein that is superior to commonly used feed ingredients. Highly digestible and rich in protein, vitamins and minerals, the product has been developed specifically for use in aquaculture diets and provides excellent survivability, immune system support and superior growth.
